# V7 AIS

A Guide to Understanding New Features

#### V7

## Design Features

- Modular design allows for freedom to mix and match components:
  - Manage Supply Chain with ability to swap PC, Monitor, Ethernet switch, IO
  - Simplified maintenance and repair with ability to replace an individual damaged or malfunctioning component instead of having to replace the entire box.
- Standard 22" display
- Display is mounted separately. Can be mounted in Landscape (standard) or Portrait orientation for Broadcast Screen (EBC), QLS Check screen, Remote Display, etc
- Dual Monitor offers native Remote Display support and option to display independent content (EBC, Images, Dashboards, Plant Overview, etc)
- Dual AIS support (one V7 can host two AIS stations with independent displays and stack lights)
- Fully backward compatible with all versions of Error Proofing and SKS systems and devices

### Costs

V7 Options
Single Display: \$3100
Available in 17" or 22" depending on customer requirements
With Dual Display: \$3999
Standard: 22"
24" or 27" available on demand

### Touchscreen

#### Default: 22" 4K - 16:9 aspect Optional: 17" 4K - 16:9 aspect

AIS Station with Remote Display, Message Screen, or Independent Content Screen

Tracking Controller with Live line view showing line status, vehicles on the line, AIS Stations statuses, live view of AIS screens

# Dual Screen Capability

### Industrial PC

- Rugged industrial housing
- Various processor choices
- Easy access to ports
- 2 x integrated 10/100/1000 Mbps Ethernet ports
- RS-232/422/485 port
- 4 GB Up to 64 GB RAM
- 60 GB Up to 960 GB Storage
- 4 x USB 3.1 ports
- 2 x display ports
- Expansion options for USB and Serial
- I/O expansion options

## Installation

Easy install, minor adaptation from Legacy AIS boxes:

- Same power cables and connection
- New 8-Amp power supply provided
- Same mounting pole
- Same Ethernet connection to MPN
- DC Tool Ethernet connection (New 4 Core)
- Stack Light mounted separately

## Value

- Cost in line with Ford's cost reduction targets
- 2 Year warranty (in line with FORD GVOSS)
- 12 Weeks lead time (Legacy AIS 25 Weeks)
- Multi-purpose device
- Modular design
- Plant maintenance and support centered
- Swappable, easy access components
- Leveraged investment
- Dual display (optional)
- Display-less (optional)

## V7\_AIS Comparison with V6\_AIS

	AIS V7 (Phoenix Contact VL3 BPC)	AIS V6 (60008N)
Price	\$3100.00	\$3,350.00
CPU	Intel <sup>®</sup> Celeron <sup>®</sup> 6305E 1.8 GHz	NXP i.MX6 Cortex-A9 Quad cores ARM Processor @1.1 GHz
RAM	4GB	4GB
Graphics	Intel HD 530	
Screen	22" Screen - standard 17", 22", 24, and 27" available	12" Screen
Disk	60 GB M.2 SSD	32 G
Ethernet ports	2 x 10/100/1000 Mbps Ethernet interface (RJ45)	2x 10/100/1000 Mbps Ethernet interface (RJ45)
Video	2 DP	NA
USB ports	4 x USB 3.0	4 x USB 2.0
Serial Ports	1x RS-232/422/485	2x RS-232/422/485
External I/O	Optional Kit (8 x I/O) \$400	Optional Kit (8 x I/O) \$400
Onboard I/O	NA	8 x Onboard Click I/O
